ALEJANDRO RAÚL IRALA GALEANO

Brand & Communication | Content | Digital Tools & AI

Lambaré, Paraguay | arig0406@gmail.com | linkedin.com/in/alejandro-irala-39aa6a193

PROFESSIONAL PROFILE

Bachelor's degree in Business Administration with over 6 years of experience organizing, documenting and clearly presenting information for teams and management, and founder of Ale Novedades, my own business, where I built the brand identity, the online store and the management tools. I combine strategic judgment, customer focus and intensive use of digital tools and artificial intelligence to move quickly from idea to prototype. Used to working autonomously, meeting deadlines and adapting to incomplete or changing requirements. Available for 100% remote freelance work.

KEY SKILLS

- Brand identity, tone of voice and visual style
- Clear organization and presentation of information
- Design of presentations, dashboards and communication materials
- Prototyping of websites and digital tools
- Applied use of AI for content, prototypes and automation
- Customer experience: NPS, surveys and Voice of the Customer
- Value proposition and customer focus
- Autonomy, deadline management and changing requirements
- Coordination with teams and different departments

EXPERIENCE

Founder — Ale Novedades (electronics, household and home goods)

Own business — Lambaré, Paraguay | Present

- Defined the brand identity: name, logo, black-and-white palette and customer communication style.
- Designed and built the online store, with a catalog organized by categories and subcategories and direct orders via WhatsApp.
- Manage the brand's presence on Instagram (@alenovedadespy) and end-to-end customer service.
- Built in-house management tools with Google Sheets and Apps Script: product upload with photos from a phone, order log (CRM) and a sales-versus-stock dashboard.
- Use AI tools to prototype, iterate and publish the website and tools independently.

Process & Continuous Improvement Analyst

Interfisa Seguros S.A. — Paraguay | 2025 – October 2026

- Implemented the "Voice of the Customer" tool to channel non-conformities and improvement opportunities from the customer's perspective.
- Analyzed NPS and customer satisfaction surveys, presenting results to management through dashboards and executive presentations.
- Designed a prototype of a WhatsApp customer service assistant and a proposal to automate notifications across service channels.
- Developed internal HTML tools for document management and activity tracking.
- Wrote reports, policies, procedures and management documentation focused on clarity for different departments.
- Supported customer-facing projects, coordinating the implementation of changes with different departments.

Planning & Continuous Improvement Analyst
Fénix Seguros — Paraguay | October 2024 – 2025

- Built Power BI dashboards and follow-up presentations for senior management.
- Developed and maintained the corporate Balanced Scorecard, translating strategy into clear KPIs.
- Automated report generation with Excel, VBA and AI tools, cutting preparation time by 30%.
- Coordinated the follow-up of objectives, KPIs and action plans with different departments.

Digital Transformation Team Lead (previously Quality Management Assistant and Records Consulting Assistant)
Lockers Records Management S.A. — Paraguay | March 2019 – September 2024

- Gathered requirements from banking and financial sector clients and supported sales teams in preparing proposals.
- Coordinated multidisciplinary teams in large-scale document digitization projects.
- Developed manuals, procedures and Excel tools that helped standardize and measure operations.
